Features

- Exclusive protein supplement containing protein meal and essential vitamins and minerals including calcium, phosphorus, magnesium, zinc, Vitamin A and Vitamin E.
- Daily supplementation of Ranvet 500 Plus will provide balancing nutrients for sound growth and excellent conditioning.
- Supplies a unique amino acid profile which provides the building blocks to lay down bone and muscle in growing horses and keeps older horses looking young.
- Optimal calcium:phosphorus ratio to ensure sound bone growth and development.
- Provides low energy and carbohydrates while ensuring high quality protein provision.
- Complete feed supplement in highly palatable, easily delivered pelleted form.
- No animal by-products.

Benefits

- Well balanced, high quality protein and amino acid supplement.
- Provides correct balance of critical bone mineral nutrients, preventing demineralisation through dietary imbalances.
- Essential elements for normal bone metabolism.
- Essential co-factors in calcium absorption and metabolism.
- Allows varying of the grain portion of the diet depending on individual energy requirements.
- Recently re-formulated in line with the latest research which suggests that increasing the levels of key minerals may reduce the incidence of developmental orthopaedic disease-enhanced levels of phosphorus, copper and zinc.
- Vitamin E now added to enhance the immune response.
- Palatable and non-siftable.

DIRECTIONS FOR USE/CONTRAINdications

Avoid mixing through a dampened or wet feed due to possible odour.

IMPORTANT NOTE: To ensure the transition from growth and development to competition occurs smoothly, it is recommended that Ranvet's Power Formula be fed following all Ranvet 500 Plus feeding regimens.

DOSAGE RATES

300-600g daily addition to the ration. Ideally, pellets should be divided equally between morning and evening feeds.

PACK SIZE(S)
