

# Topline FX

Fortifies Protein & Mineral Supplement for Horses

## PROTEIN & MUSCLE BUILDING

**FORTIFIED PROTEIN SUPPLEMENT FOR PERFORMANCE HORSES**

### KEY INGREDIENTS per Kg:

Digestible Energy 10MJ, Crude Protein 315g, Lysine 27g, Calcium 64g, Phosphorus 15.3g, Magnesium 9.95g, Potassium 0.3g, Sodium 2.4g, Sulphur 6g, Iron 304mg, Zinc 804mg, Copper 402mg, Manganese 140mg, Cobalt 2.8mg, Iodine 5mg, Vitamin A 25,000IU, Vitamin D 17,500IU, Vitamin E 835IU, Folic Acid 36mg, Fibre 80g, Oil 41g.

## Features

- ❑ Excessive protein supplement containing protein meal and essential vitamins and minerals including Calcium, Phosphorus, Magnesium, Zinc, Vitamin A and Vitamin E.
- ❑ Provides a unique amino acid profile, providing the building blocks to lay down bone muscle in performance horses.
- ❑ Optimal Calcium : Phosphorus ratio to ensure sound bone and tendon integrity.
- ❑ Provides low starch energy and a cool source of digestible energy while ensuring high quality protein provision.
- ❑ Provides the building blocks for fast and efficient building of Topline.
- ❑ Concentrated source of high quality amino acids commonly deficient within the ratio.

### DIRECTIONS FOR USE/CONTRAINDICATIONS:

Avoid mixing through a dampened or wet feed/mash due to possible odour.

*IMPORTANT NOTE: To ensure optimal growth rate and bone development, Ranvet 500 Plus Stud Formula should be used prior to commencing training or high performance.*

### DOSAGE RATES:

250-300g daily added to the ration. Ideally, pellets should be divided equally between morning and evening feeds.

### PACK SIZE(S):

14kg.

## Benefits

- ❑ Well balanced, high quality protein and amino acid supplement.
- ❑ Provides essential protein for maintaining and building Topline during training and competition.
- ❑ Provides a reliable supply of protein to reduce the implications of seasonal changes in pasture, grain and hay quality.
- ❑ Contains high levels of Vitamin E to aid in reducing muscle recovery time following strenuous exercise.
- ❑ Provides correct balance of critical bone mineral nutrients, preventing demineralization through dietary imbalances.
