

# Drench Gun

*Drenching Tool for Oral Supplements*

Precise Dosage  
Regulation

Silicone Washer to  
Prevent Leaking

Heavy Duty  
Plastic

## FEATURES & BENEFITS

- Sturdy, non-distorting, heavy duty plastic configuration.
- Transparent barrel to facilitate viewing of contents.
- Indelible graduations in relief.
- Able to be completely dismantled for cleaning and/or disinfection.
- Withstands sterilising with boiling water.

## DIRECTIONS FOR USE/CONTRAINDICATIONS:

Place contents desired for drenching into the barrel. Position the end of the nozzle to the back of the horse's mouth over cheek and teeth and dispell contents ensuring the horse swallows.
