

Folactin Blue[®]

Mineral Supplement for Stabled Horses

Bone Growth
& Strength

Formulated for
Stabled Horses

Highly Palatable
Powder

ACTIVE INGREDIENTS (per kg)

Retinol (Vitamin A 500,000IU) 150mg, Cholecalciferol (Vitamin D3 217,500IU) 5.44mg, Folic Acid 420mg, Inositol 79mg, Calcium (from Calcium Carbonate, Dicalcium Phosphate, Tricalcium Phosphate) 307g, Phosphorus (from Dicalcium Phosphate, Tricalcium Phosphate) 35.5g, Magnesium (from Magnesium Carbonate) 25.5g, Copper (from Copper Sulphate) 0.86g, Zinc (from Zinc Oxide) 1.67g, Cobalt (from Cobalt Sulphate) 8mg, Iodine (from Potassium Iodine) 8mg, Fluoride (from Sodium Fluoride) 4mg

FEATURES & BENEFITS

- Rectifies calcium and phosphorus deficiencies and incorrect ratios common in high grain diets.
- Supplies all essential minerals critical for sound bone growth and development.
- Provides all essential co-factors for bone development.
- Safe for pregnant mares, lactating mares, stallions and foals.
- Promotes optimal absorption, utilisation and retention of calcium and phosphorus.
- Optimally balanced for stabled horses in work on high grain/energy diets.
- Ensures sound bone, tendon and ligament development and integrity.
- Allows proper utilisation and deposition of calcium and phosphorus in bone and for red blood cell production.
- Safely supplements and effectively balances vitamin and trace element deficiencies in stabled and pastured horses.

DIRECTIONS FOR USE/CONTRAINDICATIONS:

Mix Ranvet Folactin Blue thoroughly through the feed. A measure is provided. One level measure holds 30g Folactin Blue. Spread dose over two feeds.

DOSAGE RATES:

Horses on high grain diets 30-90g daily

Horses in work 30-60g daily

Spelling horses 30g daily

APVMA APPROVAL NUMBER: 50379

PACK SIZE(S):
5kg Bucket & 20kg Bucket
