

Foliphos

Injectable Phosphorus, Folic Acid and Vitamin B12 Supplement For Horses & Dogs

Performance/
Exercise Stress &
Recovery

Organic
Phosphorus

For Horses
& Dogs

ACTIVE INGREDIENTS (per ml)

Butafosfan 100mg, Folic Acid 2mg, Cyanocobalamin 0.05mg

FEATURES & BENEFITS

- Provides high levels of available Phosphorus and Folic Acid in combination with a long-acting form of Vitamin B12 to boost natural levels of these in hard working horses.
- Two B-Complex vitamins, Folic Acid and Vitamin B12, essential for red blood cell formation in bone marrow.
- Highly available form of Phosphorus (Butafosfan), able to be incorporated into high-energy phosphate complexes (ATP, ADP) in body tissues and in particular, working muscles.
- Optimises the red blood cell count, increasing the oxygen carrying capacity of blood, resulting in increases in stamina, reduced fatigue and optimal performance.
- Provides a Vitamin B12 boost to maintain blood and liver Vitamin B12 levels.
- Stimulates and maintains the appetite.
- Aids to increase starch digestion in the stomach following the intake of high grain diets.

DIRECTIONS FOR USE/CONTRAINDICATIONS:

To be used only by or under the supervision of a veterinary surgeon.

DOSAGE RATES:

Give by intravenous, intramuscular or subcutaneous injection. Sterile technique and equipment must be used for each injection. In Acutely diseased animals: Small dogs 0.5-2mL, Large dogs 0.5-5mL, Horses 5mL to 20mL.

In Chronic diseased animals: Half the above dose at intervals of 1-2 weeks or less.

In Healthy animals: Half the previous dose.

Volumes of more than 20mL should be split and given at several intravenous, intramuscular sites or given subcutaneously.

APVMA APPROVAL NUMBER: 52631

PACK SIZE(S):
100mL Multi-dose Vial
