

Grand Prix Oil

Omega 3, 6 & 9 Fatty Acid Supplement for Horses with Natural Garlic

Cool Source
of Energy

Enhances
Coat Shine

Includes Natural
Garlic

KEY INGREDIENTS (per L)

Omega 3 (Linolenic Acid) 90mL, Omega 6 (Linoleic Acid) 270mL

FEATURES & BENEFITS

- Omega 3 and Omega 6 ratio 1:3
- Provides beneficial anti-inflammatory effects.
- Safe for pregnant mares, lactating mares, stallions and foals.
- Inclusion of pure and natural garlic oil ensures high palatability.
- Improves energy content of diet without adding gut fill.
- Limits the heat of digestion, particularly favourable in hot/ humid conditions.
- Garlic may assist the immune system, repel biting insects, maintain beneficial gut flora and assist with pain relief and swelling.

DIRECTIONS FOR USE/CONTRAINDICATIONS:

Ranvet's Grand Prix Oil may be mixed through the feed or administered orally over the tongue. Supplementation on a continual basis is necessary to maintain effect.

IMPORTANT NOTE: It is likely to take up to 4-6 weeks for horses to adapt fully to oil in the diet, so a gradual increase in the oil content of the diet from 30-50mL daily is advised. It must be considered that up to as much as 10% of the diet may be achieved in fat supplementation.

DOSAGE RATES:

50-150mL daily/500kg

PACK SIZE(S):

5L, 20L & 205L
